

## DIGITAL SIGNAGE-MAIN SERVER (KTC -RDO)

KTC-RDO is the main server connecting the Hospital Information Service (HIS) to the Digital Signage System. It also connects to the Mini-PCs/ Raspberries and control panels (ECP\_04) to manage the content of the signage system of the facility via the local network.

The stream of T.V./Satellite programs to the LCDs is made possible using the Multi-tuner DVB-T/DVB-S cards installed on KTC-RDO.

The main software of the Digital Signage is installed on this server to manage the system.

### Technical Specifications:

Operating System	Windows 10
H.D.D.	Min.120 GB- SSD
RAM	Min 4 GB
Special Hardware	Ethernet Port
Processor	Min Core i3 or equivalent
