

REPORTING NCS-PATIENTS' HANDSET (NCB-05)

NCB-05 is the advanced patients' handset with a Nurse Call switch attached to the patient's intercom panel (BCP-18) via a coiled cord secured by an 8-pin military socket preventing detachment from the panel by any jolt.

NCB-05 also has a microphone for a 2-way communication to the staff console (CUI-04) in combination with the speaker in the patient's panel (BCP-18). It also has a speaker for radio FM and T.V./Radio channel and volume control keys along with a 5mm headphone jack.

NCB-03 has a switch to turn on/off the reading light in the Patient's console.

Technical Specifications:

Weight	245 g		
Dimensions	W: 55 mm	H: 200 mm	D: 23mm
Raw Material	Body: Polycarbonate +ABS Coiled Cable: PUR		
Color	White		
Connection	8-pin Gx16 (Female)		
Port1	Headphones 5mm Jack		
Speaker	0.5 W/ 8 Ohm		
Keypad	Membrane		
Cable Length	4 m		
Remote T.V./Radio Control	Yes		
Operating Temperature	-10°C ~ +50°C		
Operating Humidity	30-% ~ 80% RH		
Mounting	Tabular at the bedside/Wall
