

INFOTAINMENT SYSTEM-PATIENTS' HANDSET (NCB-30N)

NCB-30N is a dual purpose pear-push nurse call switch serving both the infotainment system (2-way full-duplex voice communication/Nurse Calling) and the redundant Nurse call system(Nurse Calling/Cancelling).

It connects to the All-in-One via an 8-pin military socket and a medical grade coiled cord.

NCB-30N ensures that the patient is always connected to the hospital staff even in case of the LAN failure.

Technical Specifications:

Weight	150 g
Dimensions	W:40 mm H:100 mm D: 28 mm
Raw Material	Body: Polycarbonate +ABS Coiled Cable: PUR
Power Supply	5 VDC
Color	White
Connection	8-Pin Gx16 (Female)
Cable Length	4 m
Operating Temperature	-10°C ~ +50°C
Operating Humidity	30-% ~ 80% RH
Mounting	Tabular at the bedside/Wall
