

**INFOTAINMENT SYSTEM-STAFF CONSOLE (CUI-41)**

CUI-41 is a desk unit capable to make audio calls to the patients' All-in-One units over the LAN of the hospital ( Voice Over IP).

CUI-41 supports 4 level of priority for the initiated calls: Critical ( The highest), Service ( Second Highest), Emergency (Third Highest) and Normal ( The lowest).

It can handle 256 beds and can initiate emergency code calls if connected to the emergency code calling system through LAN of the hospital.

The reporting feature can also be implemented through a computer connected to the LAN of the hospital with CUS application.

**Technical Specifications:**

Weight	827 g		
Dimensions	W: 280 mm	H: 48 mm	D: 160 mm
Raw Material	Polycarbonate-ABS		
Power Supply	24 VDC		
Color	White		
Port1	RJ45 Connector to Terminal Box (TBX-31)		
Port2	RJ45 to Hospital Network		
LCD Type	7-inch Touch , TFT		
Speaker	8 Ohms , 0.5 Watt		
Operating Temperature	-10°C ~ +50°C		
Operating Humidity	30% ~ 80% RH		
Mounting	Desk / Surface
